

NOTICE OF VARIATION OF A PERMIT

Scottish Environment Protection Agency grants this variation notice in exercise of its powers under Regulation 25 of the Environmental Authorisations (Scotland) Regulations 2018. The terms used in this notice, unless otherwise specified, are the same as in the standard conditions for radioactive substances activities and the Environmental Authorisations (Scotland) Regulations 2018.

Permit Reference		EAS/P/1173573
Variation Number		VN01
Authorised Person	Name	Augean North Sea Services Limited
	Registered Office	Jgb Centre, 2 Woodside Road, Bridge of Don Industrial Estate, Aberdeen, AB23 8EF
	Company Number	SC421461
Effective Date of Variation		15/07/2019
Details of variation		
Authorisation no: RSA/A/1147087, which is a deemed permit under Schedule 5, paragraph 2(1) of the Environmental Authorisations (Scotland) Regulations 2018, is replaced in its entirety with Permit no: EAS/P/1173573, as attached.		
Permission to dispose of liquid radioactive waste to sewer, requested in the variation application submitted to SEPA in October 2018, has been included with this transition.		

.....
Authorised to sign on behalf of the
Scottish Environment Protection Agency

Date:

15th July 2019

Under Regulation 55 of the Environmental Authorisations (Scotland) Regulations 2018 you are entitled to appeal to the Scottish Ministers against the conditions attached to this permit (including the specification of standard conditions, but not the standard conditions themselves) within two months of the date of this notice, except where SEPA has granted this variation in implementation of a direction to SEPA of the Scottish Ministers. The bringing of an appeal will not have the effect of suspending this notice. The procedures for the making of an appeal are set out in Schedule 4 of the Regulations.

SCOTTISH ENVIRONMENT PROTECTION AGENCY

ENVIRONMENTAL AUTHORISATIONS (SCOTLAND) REGULATIONS 2018

The Scottish Environment Protection Agency grants this permit in exercise of its powers under Regulation 23 of the Environmental Authorisations (Scotland) Regulations 2018. The terms used in this permit, unless otherwise specified, are the same as in the Environmental Authorisations (Scotland) Regulations 2018 and the standard conditions for radioactive substances activities.

Authorisation Type		Permit
Permit reference		EAS/P/1173573
Authorised Person	Name	Augean North Sea Services Limited
	Registered Office	Jgb Centre, 2 Woodside Road, Bridge of Don Industrial Estate, Aberdeen, AB23 8EF
	Company Number	SC421461
Authorised Activities		The management of radioactive substances excluding sealed sources
Authorised Place		The place at the date of this permit having the postal address: Greenbank Waste Management Centre, Greenbank Crescent, Aberdeen, AB12 3BG
Conditions to which this authorisation is subject		The conditions in sections A, B, C, G & H of the standard conditions for radioactive substances activities. The conditions in schedule 1 of this permit.
Effective Date		15/07/2019
Date authorisation ceases to have effect		Until surrender or revocation

Authorised to sign on behalf of the
Scottish Environment Protection Agency

Date:

15th July 2019

SCHEDULE 1 - Conditions Specific to this Permit

1. Receipt of radioactive waste

- 1.1 You are only authorised to receive the following low level radioactive wastes:
- a. NORM contaminated components for transfer; and
 - b. NORM contaminated wastes, including but not limited to oils, sludges, sands, scales and waxes, for repackaging, transfer and/or disposal.

2. Storage of radioactive waste

- 2.1 You are only authorised to store NORM contaminated components or waste for one year.

3. Repackaging of radioactive waste

- 3.1 You must repackage all NORM contaminated waste by removing it from its container in which it arrived and placing it in the designated container for transfer.
- 3.2 You must ensure that the final packaged waste form is low level radioactive waste.

4. Authorised disposals

- 4.1 You are authorised to discharge the radioactive wastes described in column 1 of Table 1 by the disposal route specified in column 2 of the same row of Table 1.

Table 1 - Authorised Disposals

Description of Authorised Radioactive Waste	Specified disposal routes	Discharge limits for each specified route	
		Radionuclides or Group of Radionuclides	Annual Activity Limit (GBq)
Liquid	To Nigg WWTW through the normal foul drainage system	Radium-226	0.25
		Radium-228	0.25
		Lead-210	0.25
		Polonium-210	0.25

5. Additional information requirements

- 5.1 You must submit to SEPA a written summary, for the calendar year, of the following information by 28th February of each year:
- a. The total mass of NORM waste received;
 - b. The volume of NORM waste received;
 - c. The total radioactivity in the NORM waste received expressed as radium-226, radium-228, lead-210, polonium-210 and uranium-238;
 - d. The total mass of heavy metals in the NORM waste received expressed as arsenic, barium, cadmium, chromium, copper, mercury, nickel and zinc; and
 - e. The total mass of petroleum hydrocarbons in the NORM waste received.
